Domestic Mouthblown Antique Glass

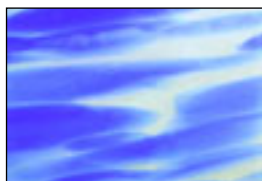

Each sheet is mouth-blown and fashioned by hand in the traditional manner. From the original gather of molten glass to the finished sheet is a two-day progressive process. This results in sheets that are unique in color with a fire-polished finish. Each sheet is more beautiful than the last!

Due to the handmade nature of this glass, availability is extremely limited. A fresh assortment of styles and colors is available with each new shipment. All styles can be special ordered. Colors and styles will vary per shipment.
